

Moody have been appointed by APV UK as the exclusive accredited spares and refurbishment agents for the range of APV Gaulin "K" and "MC" homogenisers in the UK.

The agreement has enabled Moody to provide a complete range of spare parts at the most cost effective prices.

Our stockholding of these parts is the most comprehensive in Europe.

In addition we also carry extensive stocks of spares to suit all Gaulin and Rannie range of homogenisers, as well as the Tetra Pak range of homogenisers.

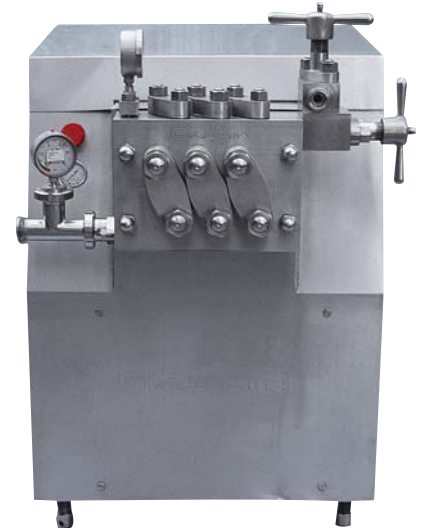

The tables within the "MC" section have been designed to enable you to enter your part numbers that are specific to your machine(s).

Homogenisers

Introduction	Page	2
K Series		3 - 8
MC Series		9 - 16

K SERIES HOMOGENISER

MC SERIES HOMOGENISER

Homogeniser Automation

We offer a PLC package for automatic start-up and shut-down of remote controlled homogenisers.

This will control:

- Cooling water shut off valves,
- Oil pressure cut out switch delay time,
- Main engine start-up,
- Hydraulic loading pump start-up.

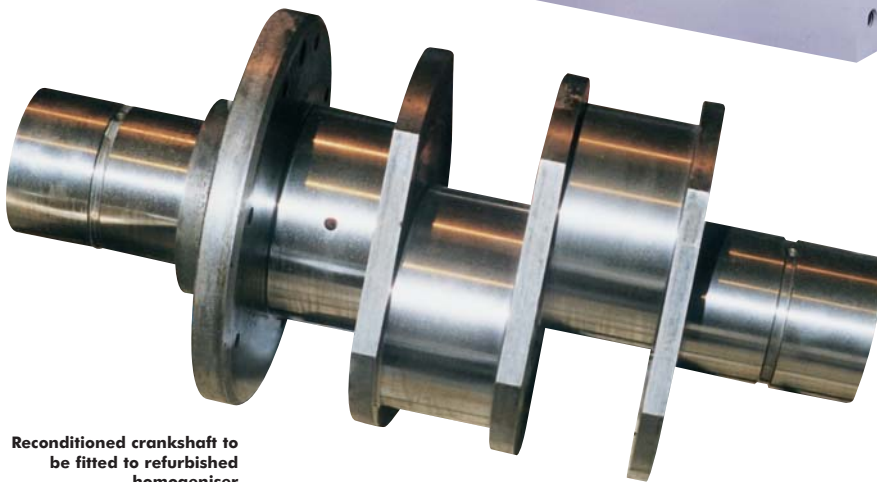

The above facility is available in reverse for shut-down. Please contact us to discuss the above options.

Cylinder Block

CRACK TEST ON CYLINDER BLOCK

Reconditioned crankshaft to be fitted to refurbished homogeniser

New Cylinder Blocks

These are available to fit the whole APV Gaulin range. We can quite often supply these from stock, but if this is not possible delivery time is usually kept to a minimum as the necessary material is always ex stock.

Cylinder blocks can also be manufactured to fit to Alfa Laval, Rannie and Soavi homogenisers. Please contact us with your requirements and we will quote you by return.

We specialise in the repair of worn homogeniser blocks. We pride ourselves that when a block has passed through our reconditioning system it will be in as near new condition as is possible. All non cracked blocks can be rebuilt.

If your operation cannot afford for an homogeniser to be 'off line' for more than a few hours we offer you the facility of a service exchange cylinder block. Our engineers deliver to site, fit and recommission a fully reconditioned block and your worn or damaged block is taken away in exchange. Please contact us to discuss this option.

ADDITIONAL SUNDRY ITEMS FOR YOUR HOMOGENISER
