

SERVING THE PROCESS &
PACKAGING INDUSTRIES
FOR OVER 45 YEARS

MOODY
Direct

OFFICIAL DISTRIBUTOR OF

YOUR FULL-SERVICE, UK PROVIDER OF PROCESS AND PACKAGING SOLUTIONS

With many years experience operating within the liquid processing sector, we've been able to grow our operations enabling us to support your complete process.

Our Services

Process Equipment Components & Spare Parts

We can provide competitive prices on pumps, valves, homogenisers, pasteurisers, heat exchangers, separators, CIP systems, fillers, tanks/vessels, conveyors/product handling systems, pipework, and much more. Our large stockholding offers an extensive range of spare parts and components from all leading original equipment manufacturers (OEM's).

Servicing & Maintenance

Our highly skilled and committed Service Team provide planned preventative maintenance, service agreements and emergency breakdown support.

Service & Repair Centre

Our centrally based, accredited Service & Repair Centre has the resources, facilities and experience to provide complete equipment overhaul for repair and refurbishment.

Heat Exchangers

With a dedicated team of heat exchanger engineers, and a fully equipped refurbishment centre, we can provide a comprehensive range of heat transfer solutions.

Integrity Testing

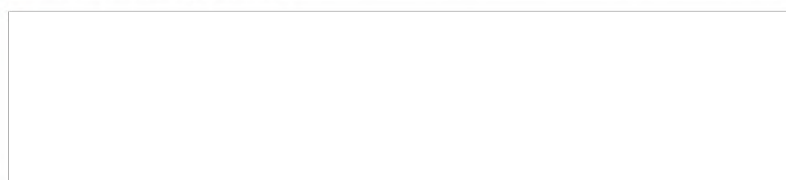

We offer a range of on-site, non-destructive testing (NDT) solutions including: tank testing, PHE integrity testing, instrument calibration, condition monitoring, holding time verification, and hydrostatic pressure testing.

Projects

Our Projects Team are able to provide the complete project life-cycle services from design through to commissioning and after-sales support.

Machining

We design and manufacture a wide range of generic components, including a wide range of sub-contract CNC machining services to manufacturing markets.
